TWENTY-FIVE BUILDINGS BURNED. The fire consumed all but 3 of the ouildings in the district bounded by Market, Walnut street and Main street Market, Walnut street and Main street and the river. 25 houses were totally destroyed, including the large brick school house. Many of the buildings destroyed had been washed from their foundation, though many of them con-tained household goods which had been saved from the flood. But a small amount of the goods were saved. The fire was supposed to have originated from sourks flying from burning debris in the amount of the goods were saved. The fire was supposed to have originated from sparks flying from burning debris in the neighborhood. The Philadelphia Fire Companies here on duty fought the flames, which for a time got beyond their control and were only subdued by tearing down houses in their path. The loss has not yet been fixed.

CAUSE OF THE FIRE. It seems that a boy was burning a when the wind caught some of the emhouse. In a few minutes the fire jumped into a huge pile of partly upturned frame houses. A number of the houses which have been burned, or are burning, were being cleaned out and repaired, which adds to the trouble of citizens whose hopes were high for a speedy return to their homes. BODIES BLOWN OUT.

BRASS FACTORY DESTROYED. An Early Morning Fire Burns \$300,000

Worth of Property.
New York, June 24.—The Manhattan Brass Company, the largest manufac-turers of brass goods in the city, was completely burned out early this morning, and their factory on First avenue and Twenty-seventh and Twenty-eighth streets, entirely destroyed. The loss on building and stock is estimated to be nearly \$300,000, divided as follows: \$150,000 on tools and machinery, \$75,000 on stock and \$75,000 on building, all of which is fully covered by insurance. The exact cause of the fire has not been The exact cause of the fire has not been accurately determined, but it is supposed to have originated from an overheated furnace. The factory was situated directly opposite the buildings of Bellevue Hospital, and a slight panic occurred among the immates of the place when the fire broke out. The occupants of the lenement house immediately adjoining the factory were thoroughly frightened and many of them removed their goods to the street.

THE GOLD BRICK SWINDLE

Successfully Worked on an Englishman to California. San Francisco, June 24.—An Englishman named S. C. Coombs has lost \$8,000 by the old gold brick swindle. The trick was very cleverly played by the sharper who figured as a farmer, and his confederate as an Indian. Coombe came here from England six months ago and went into business. Last Friday a stranger came to him with a letter from a man. named Coombs living near Chicago. The letter said that the writer believed his brother to be in Frisco, and he wanted to give him points to make \$20,000 for one-third the amount. The swindler then told the story of an old Indian who had gold which he would sell for \$8,000. Coombs jumped at the offer and weat with the stranger to see the Indian, pear the Golden Gate Park. Coombs saw the gold brick and received drillings made under his own cyes. These drillings being pronounced pure gold by agsayers that same afternoon, Coombs drew \$8,000 from a bank and exchanged it for the brick. Who were Chosen by the Prisoner, Who is a White Man-A Tripple Kentucky Tragedy-Gambler Lynched-Other Crimes.

CHARLESTON, S. C., June 24.—The atement that Dr. McDow was recently statement that Dr. McDow was recently elected Company Surgeon of the Lafayette Artillery, and that this action was regarded as significant of the drift of public opinion in regard to the case against McDow charged with the murder of Capt. Dawson, is incorrect. McDow's name does not appear in the list of officers elected as furnished for publication by Capt. Bolger, of the Lafayette Artillery, who states positively that McDow was not so elected. The trial of McDow begun to day, Judge Kershaw presiding.

This is just such a day as the day on which Capt. F. W. Dawson was buried over three months ago. It has been raining and blowing for forty-eight hours, but neither the cold east wind nor the rain have kept the people indoors. Dr. T. B. McDow is on trial for his life, charged with the murder of Captain Dawson. The court house is packed; there is not even standing room left, all classes in the community are represented in the assemblage. A number of clergymen have secured seats at the bar and will sit through the case. When McDow entered the court room this morning he was somewhat nervous, but quickly recovered his sell possession and is looking on with as much apparent unconcern as any of the spectators.

The jury was formed without much ected Company Surgeon of the Lafay-

asparent unconcern as any of the speciators.

The jury was formed without much delay. It is composed as follows: A. McLob, George Butler, Arthur Middleton, P. G. McInniss and A. U. Prince (white), and P. H. Alston, A. McKenzie, J. M. Beng, R. Scanlan, Alexander Sima, W. H. Burgess and C. C. Lealie (colored)—five white and seven colored men. McDow is represented by Exfor Magrath and Asher D. Cohen. The prosecution will be conducted by Solicitor Jervey and H. M. A. Smith. McDow objected to all the white men called except five, and selected seven negroes on the jected to all the white men called except live, and selected seven negroes on the panel. The first witness called by the State was Policeman Gordon, to whom McDow surrendered himself three hours after the shooting. Gordon's statements were substantially the same as given before the coroner's jury. The case will probably not be concluded before Thursday.

gives the following particulars of a triple tragedy in Bell county, Kentucky:

G. W. Norwood, of Birmingham, Ala, a contractor on the Cumberland Valley extension, was murdered Saturday at the camp near Cumberland Gap by an Italian known as Toney Cravasso. Toney and his brother were bakers at the south end of Cumberland Gap tunnel and had sold bread to some of Norwood's men and had requested him to hold the men's pay till they could collect their bills. Norwood told them that he could not withhold the men's pay except on a garnishee, and directed the Italians to a magistreat. Saturday they called on Norwood and asked if he had their money. He told them he did not have any money for them and walked out of the Commissary store and entered indoors Toney, who had followed him, shot him in the back, killing him almost instantly. The Italians escaped to the woods, but they were captured Saturday night in Tennessee. They were brought back to Kentucky yesterday and were being conducted to the Pineville jail, when Judge Lynch took charge of them and gave them a trial, resulting in the hanging of the elder, Toney, and the sending of the brother to jail. The officers started for Pineville with the younger Cravasso, and as they were traveling along the road a Winchester rifle cracked on the mountain side and the prisoner fell in the road a corpse.

The Milan Enterprise of Friday contained the following corroboration of the rumor. All Grizzard, alias Hawkins, was hung by a mob supposed to be composed on legro gamblers, at Tiptonville last Wednesday. It seem that he had won all the money the negroes had, and they enraged at their loss, carried him forcibly off of a boat, first throwing a sack over his head to prevent his outcries from attracting attention. They then carried him into the woods and drew him up to a limb, demanding that he carried him into the woods and drew him up to a limb, demanding that he should return the money. He refused to comply with their wishes, and they jerked him up for good. He lived here and was a noted gambler. His corpse was brought here yesterday.

to-day and to the bears who has sold pipe line certificates short, it seemed hat a cyclone had struck the, market so that a cyclone had struck the market so sudden was the advance. For weeks duliness has prevailed in the oil market and on recent days the trading has been insignificent in volume and the fluctuations ranged within the narrowsat limits. On Saturday the movement was confined to a fluctuation of all day. To-day the market opened firm at Significant to the structure of the second structure o the principal markets both by Standard Oil people and producers and before half an hour had passed the price reachalf an hour had passed the price reachalf and hour had passed the price reachange to the principal buyers. The greatest excitement provailed on the Consolidated Exchange to-day in consequence of the jumps in prices. The cause of the sudden advance was the fact that the Standard people had brought about a settlement of their agreement with the Producers Protective Association, which was not expected to expire until July 1. By this agreement the Standard Oil Company had the call on 3½ millions barrels of oil held by the Association at 62 cents, with charges since November 1, 1887.

brokers will be hurt. It is said the
adoption of the proposition to deal in
futures to-day was the cause for the sharp
advance in oil.

advance in oil.

Two years ago the Standard Oil Company closed a compact with the majority of the producers, whereby it was to sell six million barrels of oil at 65 cents provided the drillers would suspend operations. This moveit was understood, was to force the price up to 51, and thus place the producing business on a paying basis. Every effort falled, and the nearest approach to that figure was made last winter when 98 was reached.

THE PANAMA CANAL FAILURE.

housands of Workmen Still Suffering

Isthmus continue to wear a gloomy look and one which will last until thousands Many have gone, but, as already report ed the means of reaching some place, where work is to be held. Some have gone from Aspinwall to Port Limon gone from Aspinwall to Port Limon, but at those little places there is small chance for workmen to find employment and a majority of those who went speedity left for other localities. The Peruvian and Chilian Consuls offer to pay the passages to the South of natives of those countries who desire to return to their homes. Much activity is noted at Oulebra, Colon and Lalboca, where work is in progress of storing in the workshops the immense stock of material at those sections belonging to the Panama Canal Company.

Mr. Bregeand, a naval engineer, is in charge of the professional part of this important work at Culebra, where the materials and stock of valuable machinery would have suffered heavy damage during the rainy weather had they not been placed under cover.

225,000 which Sir James Ferguson, the Under Foreign Secretary, will lay before ment of the Shah, will meet with bitter opposition. This time it is not alone the Radicals, who always make an outery against these expenditures, who will object. The treaty which the august visitor concluded with the Czar during his stay in St. Petersburg is little by little coming to light, and it is already evident that this treaty in terms is a stroke at England. It provides that in case of war with England, Russia may occupy Persian territory for offensive operations. The proposed race will be one of endurance, in which the champion thinks she can out the champion thinks she can out the champion thinks he can out the champion that the champion the champion the champion the champion the champion that the champion the champion the champion that the champion the champion the champion that the champion the champion that the champion the champion the champion that the champ MEMPHIS, TENN., June 24.—It was reported in Memphis Saturday that a negro war with England, Russia may occupy Persian territory for offensive opera-

n its review of the British grain trade in its review of the British grain trade during the past week says: The weather favors the wheat crops, except in the heavier soils which will need dry weather during July. The sales of English wheat of the past week were 125,000 quarters, a fair quantity for a midsummer week. The foreign wheat trade is improving though there is no quotable advance in prices. Indian is occasionally 6d dearer. Foreign barley is 3d dearer. Oats are firm. Beans and peas are weaker.

lie schools because Rome is opposed to it." [Applause.] "The recent Lenten lecture of Oardinal Gibbons publicly, advised and urged upon his people to read the Bible. Now, do not say that Cardinal Gibbons wa I do not say that Cardinal Gibbons was not honest in that advice, but if he did mean what he said he was not a good Catholic, and if he did not mean it he was not honest. The aim of the Catholic is to make Romanists. Our aim is to make character. Rome controls all her people and therefere a Romanist cannot be a good citizen of this Republic. It the Pope had his way our Republic, with its public schools and the open Bhis would soon go. Rome has already declared her intention not only of driving the Bible from the public schools, but also dividing the funds to her own advantage, Rome openly antagonising one vantage, Rome openly antagonizing one of the leading institutions of our coun

GRAND MASONIC TEMPLE

Dedicated in Pittsburgh—A Great Day Among Free Masons. fasonic Hall was dedicated to-day, and Free Masonry of Pennsylvania has another handsome monument to its greatness in Pennsylvania, second only to the magnificent temple in Philadelphia. The solemn services began at noon, and lasted for an hour and a hair. They were strictly in accordance with the ritual of the Grand Lodge. The services were conducted by Clifford P. McCall. Bight Worshipful Grand Master of Philadelphia, and other grand lodge officers. Closing the exercises this evening, Lodge 45, the oldest lodge west of the Allegheny mountains, its charter being granted 104 years ago, held a special meeting, largely attended by members of sister lodges in the western portion of the State, and tendered a reception to the grand officers. A. B. Rulledge delivered an address of welcome, and was responded to by Right Worthy Grand Master McCall. A grand dinner of 300 plates was held in the new banquet half closing the exercises for the day.

A BIG BEER BOYCOTT.

of the Results of the English Gobble of Brewertes.
New York, June 24.—The public has recently been notified of the purchase of nearly all of the largest brewertes in New York City and its vicinity by English syndicates. Up to date nearly \$10,000, 000 have been paid for the rights of some of the largest breweries in the country, and now comes a movement, which if carried out with the success anticipated, will make English stockholders in the syndicates think twice before they jump at the American securities of the kind comprised in the ownership of stock in ale and beer breweries. Twenty-five Irish-American liquor dealers, all of whom are members of the Clan-na-Gael, are organizing a movement in New York City, Brooklyn, Jersey City, Long Island City, Newari, Patterson, Trenton, Troy and Alhany to make a successful boyout on all ale, porter and beer brewed by the English syndicates.

Races for Bertie Lawrence which the champion thinks she can onlast her male competitor. The race will be a seventy-two-hour go-as-you-please, and will take place next week at the Lafayette Opera House, Martin's Ferry. Mamie Woods, who pushed Miss Lawrence very closely in her recentrace, has arranged a twenty-five hour contest with her, to take place in about four weeks at East Liverpool.

So far Bertie has won every race she has taken part in, and her many Wheeling admirers will expect a good account of her efforts in this case.

The Glencoe Pipe Line.

The Gience Pipe Line.

There are about twenty men at work on the pipe line to be laid from the Giencoe oil region to Bellaire, and a good deal of the pipe the other side of Franklin is already down. The projectors are awaiting word from the B. & O. as to a right of way over a portion of the railroad company's ground. It is probable the line will reach the river this week, unless some changes in the route have to be made. In that event the pipe line may not be completed until later. The oil will be abipped in barges from Bellaire. The Camden Consolidated Oil Company is in command.

New Martinsville's Fourth.

New Martinsville's Fourth.

New Martinsville is to have a glotions old time on the Fourth. The committee has arranged for several fine home races, and a bicycle race by the handsome lady riders who recently gave a week's contest here, besides other popular anusements. The railroads hive made special rates, and several steamboats will give excumions. The prospects are that the largest crowd will be attracted that was ever seen in the town. Among others, quite a party of isdies and gentlemen will go down from this city.

A Good Appetite

A Good appetite
Is essential to good health; but at this
season it is often lost, owing to the
poverty or impurity of the blood, derangement of the digestive organs, and
the weakening effect of the changing
season. Hood sarasparilla is a wonderful medicine for creating an appetite,
toning the digestion and giving strength
to the whole system. Now is the time
to take it. Be sure to get Hood's Sarasparilla.
